

HPURE AUTOTRONIC CVTF LO (LOW VIS)

Product Description

Continuously Variable Transmission Fluid blended from high-performance fully synthetic base oils and carefully selected additives, including friction modifiers, detergent-dispersants, oxidation inhibitors, viscosity index improvers, corrosion inhibitors, and defoaming agents.

This oil is an automatic transmission well-balanced fluid specially designed for use in latest generations of Continuously Variable Transmissions (CVT) which transfer traction via steel-made traction chains or belts. It provides outstanding power transmission ratios and better fuel-economy performance of CVTs as compared with the regular automatic transmissions, many car makers have been adopting CVTs in more and more models.

Applications / Benefits

- γ Excellent low temperature fluidity, reducing start up wear
- γ Provides excellent friction, oxidation and thermal stability
- γ Outstanding anti-wear properties and oil film thickness
- γ Compatible with a wide range of seals

Typical Characteristics

Test Description	Method	Unit	
Density @ 15 °C	ASTM D 4052	kg/L	0.839
Flash Point	ASTM D 92	°C	198
Pour Point	ASTM D 97	°C	-45
Kinematic Viscosity @ 40°C	ASTM D 445	cSt	26.18
Kinematic Viscosity @ 100°C	ASTM D 445	cSt	6.201
Viscosity Index	ASTM D 2270	-	201
Appearance	Visual	-	Green
